Clockhouse!

Is it really important?

YES!

Geography is more than just a subject—it is a gateway to understanding the world and our place within it. By fostering curiosity, critical thinking, and global awareness, geography empowers students to become informed and responsible citizens who are equipped to navigate the complexities of the modern world. Through our engaging lessons and our wow learning opportunities, we aim to inspire a lifelong love of geography and a deep appreciation for the wonders of our planet.

Year 4 have been learning about Climate change and its impact on our planet!

Our golden threads help us to link our learning!

What's beyond Collier Row?

What is wonderful about planet Earth?

In Year 1 the children have learnt all about costal regions. They have learnt about different features of our coasdlines and even visited a beach!

I liked when we learnt about different types of beech, I think I liked the sand best!

I have enjoyed our whole topic! I especially liked considering how extreme weather impacts different regions differently. I also loved trying to learn all of the states in the USA!

In Year 6 the children have learnt all North America! They have looked at maps, studied the physical and human features there, considered how climate and soil type impacts on agriculture and enjoyed some practical learning about trade!
