

WELCOME TO YEAR 6!

Miss Shipton

Hello, I am Miss Shipton and I am so excited to be your Year 6 teacher next year. I cannot wait to get to know you all and begin our journey together. Year 6 is such a special year, filled with new learning and lots of moments to be proud of. I know that we will work hard, support each other and make some fantastic memories along the way.

About Me

I grew up and attended school in Havering but have lived in lots of different places in England. Before becoming a teacher, I studied Biomedical Science at Keele University followed by a Master's Degree at Hull York Medical School. Finally, I did my teaching qualification in Chester.

My time at university sparked my passion for science and the world around us. Science is now my favourite subject to teach!

I also love to travel and have visited many countries around the world. However, my favourite place to visit is Disney World in Florida!
